# TREATED FLAME RETARDANT

PERSONAL PROTECTIVE EQUIPMENT

## PORT FLAME COVERALL Article No: 3002/FRSDR 240

Club Twenty One Workwear® provides flame-retardant and high-temperature-resistant garments tailored specifically for the demands of fire retardancy in oil & refinery environments. These garments possess a distinctive molecular structure that prevents combustion in the air, eliminates melting or dripping risks, and maintains their flame-retardant properties even after washing. Our comprehensive product line is meticulously crafted to cater to a diverse range of working conditions worldwide, offering a variety of designs and options to meet the needs of the industry.

The utilization of Club Twenty One Workwear® in crafting flame-resistant clothing instills a sense of confidence, allowing individuals to concentrate fully on their tasks and perform at their utmost capability.

## SEAMLESS BLEND OF RESILIENCE AND COMFORT

Unveiling lightweight fabric with heavyweight performance. Elevate your comfort to unprecedented levels – a tactile experience that demands belief. True to its name, durability takes the spotlight, promising a garment that withstands the test of time. Featuring:

- Unwavering flame resistance
- Enduring flame resistance properties
- Exceptional durability
- The fusion of premium quality, excellence, and comfort in one remarkable garment.
